

Seminar: Introduction to Holacracy™

Sponsored by InterStrength Associates & Unite Media Group

NEVER BEFORE IN HUMAN HISTORY HAVE WE FACED A WORLD OF SO MUCH COMPLEXITY AND SO MANY CHALLENGES, ALL UNFOLDING AT A DIZZYING PACE.

Even our most progressive approaches to human organization are quickly becoming obsolete – insufficient for navigating the challenges and harnessing the opportunities now in front of us.

Is there an entirely new tier of systemic health and performance available to us? If we rewrote the most basic rules of human engagement, could we make a quantum leap in organizational design, as fundamental as the leap from feudal systems of old to the democracies of today? These questions are being asked by a growing number of organizational pioneers, and a powerful answer is now emerging.

Welcome to **Holacracy**, a complete system for organizational governance and culture at the leading edge. Embracing and transcending current and past methods of governance, **Holacracy** is an integral practice that utilizes interwoven models, principles, and systems such as:

- integrative decision-making
- dynamic steering
- requisite alignment

This synthesis of *hierarchical leadership* and *democratic ideals* results in a leap to a **higher order of organization** capable of artfully navigating a world of increasing complexity and uncertainty.
